New VISA Debit

Simple, safe, functional.

The advantages of the VISA Debit card

Always by your side. Contactless approach, online and mobile services are at your fingertips. Use it in your purchases via smartphone or on the web. Or, save it to facilitate recurring payments within your favorite apps and sites. Our VISA Debit allows you to withdraw cash anywhere in the world and make reservations at both hotels and car rentals.

Even more convenient: Through the Card24 app, you will have full control over every transaction you make. Among other features, the App allows you to instantly lock the card, request a new PIN if you have forgotten it or simply want to change it and access numerous other options.

VISA Debit and Maestro in comparison

As a result of developments in debit card technology, the new VISA Debit replaces the existing Maestro card. The VISA Debit is modern, more advanced, has new functions and uses, and thanks to sophisticated technologies such as VISA Secure, offers a high level of security. Of course, the proven features present in the current Master remain unchanged.
